What is the **PACKFROG** ?

The **PACKFROG** system allows users to exchange and store any private or confidential data and messages. It takes the pain out of GDPRS and other laws and organizational regulations by assuring easy to use and flexible encryption mechanisms. All data will be encrypted on the sender's computer and only the designated receiver will be able to decrypt it on his or her computer. The **PACKFROG** works on any modern operating system and mobile phone – just like email. There's nothing to install, nothing to download and no cumbersome digital keys to remember. Everybody can use the **PACKFROG** – it's free for users who do not have the need to transfer or store large amounts of data.

PACKFROG PRO and BIZ SERVICES

The **PACKFROG** Pro- and Biz services are designed to assist small to medium sized companies who not only need to be able to handle larger amounts of data, but also want to accept uploads from their business web-site – even from unregistered visitors. Only Pro-users can verify data reception or share multiple encrypted files with multiple users. Biz-users can also use company names, can be found as companies, can request to be verified, can use QR-Codes on business communications and business cards to invite confidential data exchange and more.

Plenty of download credits and storage space, flexible options to send and to receive data – even from/to unregistered users. Your company name displayed instead of personal names – the **PACKFROG** Pro- and Biz packages are all you need to transfer or store data safe and secure. Absolutely: Your messages are protected too.

And – it's very affordable too. You pay just $9.99 per month (PRO) or just $15.99 for the BIZ-package.

Think about it: The **PACKFROG** is your one-stop solution for all of your data transfer problems. No worries about complaints or even law-suits, you can safely accept all data, including legally protected data, just by placing a link (URL) on your web-site or into your email-footer. Take your **PACKFROG** QR Code and display it on brochures or banners to invite applications, offers or quotations – absolutely safe and secure.
